

## Related Resources

The Internet is jam packed with information on the Jehovah's Witnesses, though not all of the sites are helpful or accurate. Also, many excellent sites are maintained by our Protestant brothers and are good places for research though some discernment is required. Some of the best sites for JW research are run by former Witnesses. Unfortunately, many former Witnesses either hold on to the prejudices they were taught about Catholics or are highly suspicious of *any* organized religious group. Here are a few of the sites and books I've found helpful:

**Catholic Answers Tract Series on Jehovah's Witnesses:** good place to start; solid, basic information. Also check the on-line back issues of This Rock magazine.

Non denominational, occasional criticism of Catholicism. Discernment required, especially on the discussion forum.

### Books:

- [www.strictlygenteel.co.uk/index.html](http://www.strictlygenteel.co.uk/index.html) – On-line collection of older JW publications (mainly the Russell and Rutherford eras) These books are obviously anti-Catholic but useful for research purposes.
